

PROFESSIONAL SUMMARY

Software developer with 3+ years building enterprise SaaS used by Fortune 500 companies, FTSE 100 firms, and major Saudi institutions including Aramco and STC. I work across the full stack of a board-management platform deployed in 100+ countries, mainly in its meetings area (agendas, board packs, minutes): Java/Spring Boot backend services, a Vue.js frontend, and a lot of Oracle and MSSQL. Currently pursuing an M.S. in Computer Science at the University of Texas at Austin. Native Arabic speaker, professional English.

EDUCATION

The University of Texas at Austin <i>Master of Science in Computer Science</i> Top-10 U.S. computer science program, taken part-time alongside full-time work; coursework spans deep learning and systems.	Austin, TX, USA (Remote) <i>Jan 2025 – Expected Dec 2027</i>
Multimedia University (MMU) <i>Bachelor of Computer Science (Hons.) in Software Engineering</i> - GPA: 3.98 / 4.00, First Class Honours; ITEX 2022 Silver Medal for final-year project (Spottrip) - MMU Merit Scholarship (International); Dean’s List every semester; peer tutor for the OOP and data structures course	Cyberjaya, Malaysia <i>Nov 2019 – Feb 2023</i>

EXPERIENCE

Azeus Convene <i>Software Developer</i> - Develop features across the platform’s full stack (Java/Spring Boot backend services, Vue.js frontend), mainly in the meetings area: agendas, board packs, and the workflows around them, from technical investigation and estimates through release. - Built a scheduled document-extraction service (Spring Boot) that collects files from the platform’s modules into its Document Library (a single review point for users, and a cleaner path for data migration), and an Excel bulk-import module (Apache POI) that creates meetings in bulk. - Delivered client-driven integrations and features for GCC markets, including Nafath (Saudi national SSO) authentication via OAuth 2.0, a Twilio WhatsApp API notification channel, and a weighted voting engine for board resolutions. - Investigate and fix slow REST endpoints and SQL queries across Oracle DB and MSSQL (JPA/Hibernate) on a platform serving 100,000+ users. - Provide Tier-2/3 production support for enterprise clients including Aramco, STC, Alrajhi Bank, and ZATCA: root-cause investigation across the Java/Vue.js stack. - Build prototypes and proof-of-concepts for enterprise client proposals, and write the technical documentation that ships with features.	Riyadh, Saudi Arabia (Remote) <i>May 2023 – Present</i>
Different Tech <i>Software Engineer / Co-founder (Part-time)</i> - Co-founded and launched Around, a cross-platform marketplace app shipped to the App Store and Google Play, with backend hosted on AWS (EC2, S3, Lightsail). - Built REST API endpoints and PostgreSQL data models on the Node.js/Express.js backend, and shipped mobile features in React Native across iOS and Android.	Cyberjaya, Malaysia (Remote) <i>Apr 2023 – Jan 2024</i>
Freelance Client Project <i>Full-Stack Developer</i> Built and deployed a B2B e-commerce platform end to end for a private client: requirements gathering with stakeholders, React + Tailwind CSS frontend from Figma designs, Node.js/Express.js + MongoDB backend, deployed on AWS (EC2, S3).	Remote <i>Nov 2022 – Jul 2023</i>
Azeus Systems Limited (Convene) <i>Software Developer Intern</i> Built scheduled Node.js/Express.js services that ingested SharePoint API audit logs, normalised the data, and forwarded structured payloads to internal AI classification servers for anomaly detection.	Kuala Lumpur, Malaysia <i>Jun 2022 – Sep 2022</i>

PROFESSIONAL REGISTRATION

Saudi Council of Engineers, Registered Specialist, Software / Computer Programming (May 2024 – May 2028).

TECHNICAL SKILLS

Languages: Java, JavaScript (ES6+), Python, SQL, HTML/CSS
Backend: Spring Boot, Spring MVC, Spring Data JPA, Node.js, Express.js, REST APIs, JSP
Frontend: Vue.js, React, React Native, Tailwind CSS, jQuery
Databases: Oracle DB, Microsoft SQL Server, PostgreSQL, MySQL, MongoDB
Cloud & Tools: AWS (EC2, S3, Lightsail), Git (GitHub/GitLab), Maven, Postman, JIRA, Linux
Auth & Integrations: OAuth 2.0 / SSO, Twilio (WhatsApp API), SharePoint API
Human Languages: Arabic (native), English (professional)
